1. EU-TYPE EXAMINATION CERTIFICATE

2. Equipment or Protective System Intended for use in Potentially Explosive Atmospheres Directive 2014/34/EU

3. EU-Type Examination Certificate Number: ITS17ATEX201923X Issue 0

4. Product: Argus Ex ia Switch

5. Manufacturer: Pyropress Engineering

6. Address: Bell Close Plymouth PL7 4JH United Kingdom

7. This product and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

8. Intertek Testing and Certification Limited, Notified Body number 0359 in accordance with Article 17 of Directive 2014/34/EU of the European Parliament and of the Council dated 26 February 2014, certifies that the product has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of products intended for use in potentially explosive atmospheres given in Annex II to the Directive.

   The examination and test results are recorded in confidential Intertek Report 102266811 LHD-001 Issue 0 dated June 2017.

9. Compliance with the Essential Health and Safety Requirements has been assured by compliance with EN 60079-0:2012 + A11:2013 and EN 60079-11:2012 except in respect of those requirements referred to at item 16 of the Schedule.

10. If the sign “X” is placed after the certificate number, it indicates that the product is subject to Specific Conditions of Safe Use specified in the Schedule to this certificate.

11. This EU-Type Examination Certificate relates only to the design and construction of the specified product. Further requirements of the Directive apply to the manufacturing process and supply of this product. These are not covered by this certificate.

12. The marking of the product shall include the following:

   Ex ia IIC 50°C ≤ Ta ≤ +78°C ... +93°C
13. Description of Equipment or Protective System

The Argus range of switches include one or two micro switches which are mounted inside an enclosure and which are operated by means of mechanical actuator reacting to a particular external phenomenon. The Argus level switch includes one or two reed switches acting on the movement of the magnets indicating level of medium.

There are two alternative materials for enclosure housing the terminals, used for external connections and micro switches. The enclosures are made from Stainless Steel or Polyphenylene Sulphide (PPS). The enclosures provide degree of protection of IP66/IP67.

Various switch actuation mechanism options are provided including pressure, differential pressure, level, flow or temperature switches covering different temperature ranges.

The relation between maximum ambient temperature, process temperature range and assigned temperature class is shown below:

The equipment shall be supplied from intrinsically safe barriers or galvanic isolators. The maximum input parameters are listed below:

\[
\begin{align*}
U_i &= 28V \\
C_i &= 0 \\
I_i &= 93mA \\
L_i &= 0 \\
P_i &= 0.65W.

15. Special Conditions of Certification

(a). Specific Conditions of Safe Use

- During live maintenance, adjustments or servicing of the equipment the aluminium parts may be exposed. Care shall be taken to avoid the risk of ignition from incendive, impact or abrasion sparks.
- The DIN plug cover is made of non-conductive material. Care shall be taken to avoid electrostatic discharge during maintenance, adjustments or servicing. Clean only with a damp cloth.

(b). Conditions of Manufacture - Routine Tests

- None.

Additional Manufacturing location(s):

This certificate is issued as verification that a sample(s), representative of production, was assessed and tested and found to comply with the IEC Standard list below and that the manufacturer’s quality system, relating to the Ex products covered by this certificate, was assessed and found to comply with the IECEx Quality system requirements. This certificate is granted subject to the conditions as set out in IECEx Scheme Rules, IECEx 02 and Operational Documents as amended.

STANDARDS:
The electrical apparatus and any acceptable variations to it specified in the schedule of this certificate and the identified documents, was found to comply with the following standards:

IEC 60079-0 : 2011 Explosive atmospheres - Part 0: General requirements
Edition 6.0
Edition 6.0

This Certificate does not indicate compliance with electrical safety and performance requirements other than those expressly included in the Standards listed above.
